Do you need to access any specialist equipment, or will you be supplying your own? (please provide details):

Will you need photos for your research? If so, what will you need photos of?*:

How are you intending to disseminate/publish your research?*:**

Signature of Applicant & Date:

(By signing this form, I, the applicant, fully understand the agreement outlined below and agree to be bound by its conditions)

Signature of supervisor (where appropriate):

As the supervisor of the above named student, I support the request for access to the skeletal and/or other material requested. I also acknowledge that I am ultimately responsible for the student's conduct.

Signature & Date:

TransylvaniaBioarchaeology.org

By signing this access form, the applicant agrees to:

1. Strictly adhere to the BBAO Code of Ethics, as followed by Transylvania Bioarchaeology.
2. Take extreme care with the skeletal or other archaeological remains handled, and preserve the collections to the best of their ability.
3. Lay out and replace materials in their respective boxes, refrain from mixing skeletal or archaeological elements/materials, and repackage them in the proper packing order.
4. Provide a list and copies of recording forms of materials studied.
5. Provide a copy of any papers, theses, dissertations, books, radiographs, data, charts, etc. resulting from the study of the skeletal material.
6. Acknowledge Transylvania Bioarchaeology and the appropriate researcher or excavator(s) of the site in all publications and presentations resulting from the analysis of the skeletal and archaeological materials.

*Photos will be taken by Transylvania Bioarchaeology and may only be used or published with expressed permission and correct attribution from Transylvania Bioarchaeology.

**Access will only be granted on a collaborative basis and public dissemination of research is required as per our Code of Ethics.

Transylvania Bioarchaeology requires a copy of all research generated to be stored in the Transylvania Bioarchaeology offices. Failure to comply with this condition will result in a grievance being filed with the applicant's host university or organization, and the applicant will not be permitted any further access.
